

What Are The Benefits?

Everything we do at GymKix is designed to foster active fun and learning! The sports we offer are perhaps the most comprehensive "lifestyle exercise programs" available to children, incorporating strength, flexibility, speed, balance, coordination, power and discipline. The benefits from our activities are life-long and would be a never-ending list, so we've highlighted just a few below:

Benefits For Every Child

- Builds self-esteem and confidence
- Develops coordination
- Builds strength, power, and flexibility
- Provides a solid foundation for fitness
- Improves performance in other sports
- Enhances posture and balance
- Perfects listening skills and ability to follow directions
- Improves goal-setting skills and concentration

Benefits For Young Children (1 - 5 yrs. old)

Early childhood movement education is directly attributed to promoting reading readiness. While the pre-school gymnastics teacher runs about and plays with the children in her class, she is preparing her students for successful experiences in school. Children who have participated in movement education activities have:

- Longer attention spans
- Increased communication skills
- General problem solving skills
- Improved self-esteem
- Improved fine and gross motor skills

Most importantly, our programs provide children with an opportunity to make new friends and have fun! GymKix is affordable, healthy, educational, fun, and safe! We look forward to creating a lifetime of memories with your family!
